LoneManga is now 210+ chap (and rising)! Come and check it out!

I've heard that anyone can start down here.

That's why I wanted to come here first and secure a location for my family in the old continent.

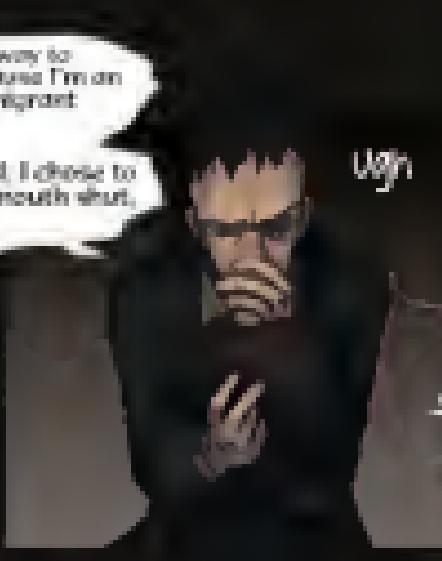

Right before my eyes...
They kidnapped my wife
and took away from me!

Away to those
slave traders!

I was scammed!

I had no way to
negotiate because I'm an
illegal immigrant.

So instead, I chose to
keep my mouth shut.

Ugh

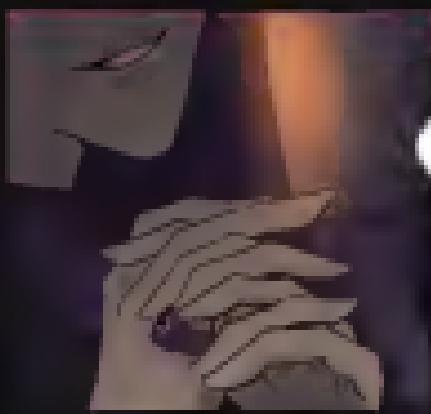

At this rate, my
kids will be sold! Like
animals in need
of week's auction.

Please... Please
help me...

Master...

How you must
be suffering

That's precisely
why we are called
the "Black Chain".

CLANG

Please, be
at rest.

Be at rest,
my brother.

*May the light of
"Luminous" be with you*

Shin Weol

... And so during the construction of her, it makes you like that to prevent it from overhauling

We had a nice view.

We have a day window
and second chance
Good luck.

We should be getting
back soon...

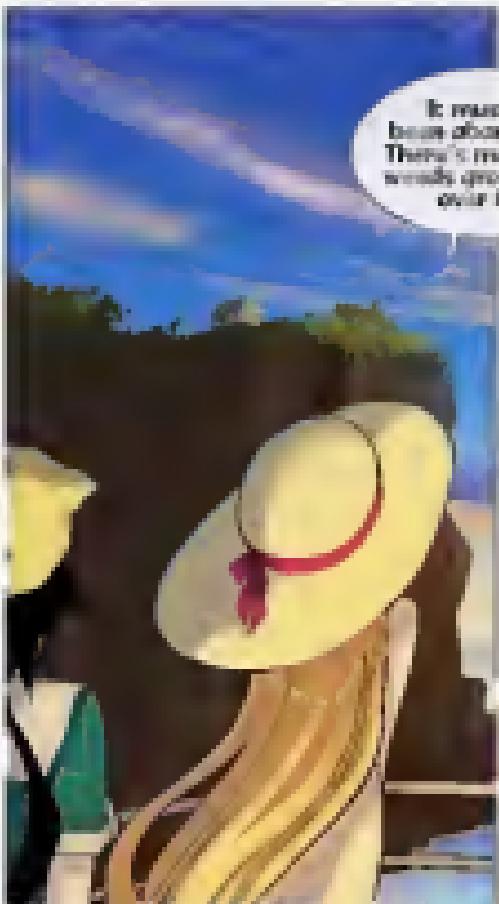

Kainak, Didan
look over there.

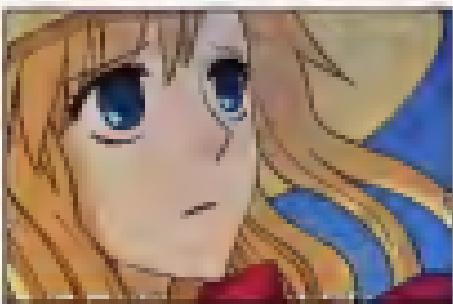

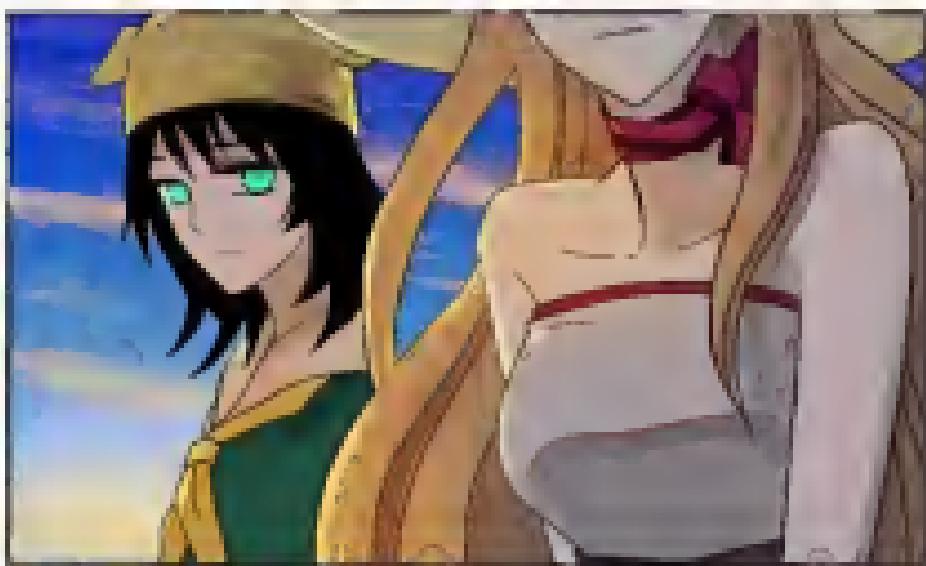

It's a
temple

It must've
been abandoned.
There's moss and
weeds growing all
over it...

Now, take this key.

I'm heading over to Python's Neapolitan branch for a brief moment.

I'll be back
before noon, so until
then, please stay put.

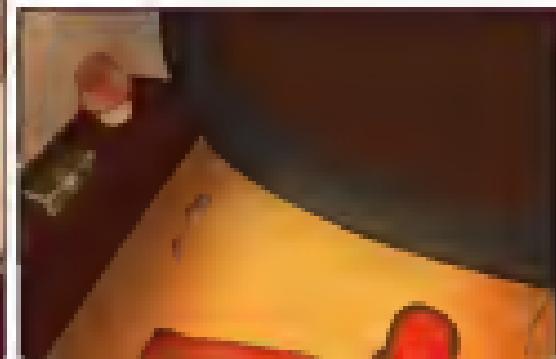

It's quite populated
and the roads are like a
mine field, so you can
get lost easily

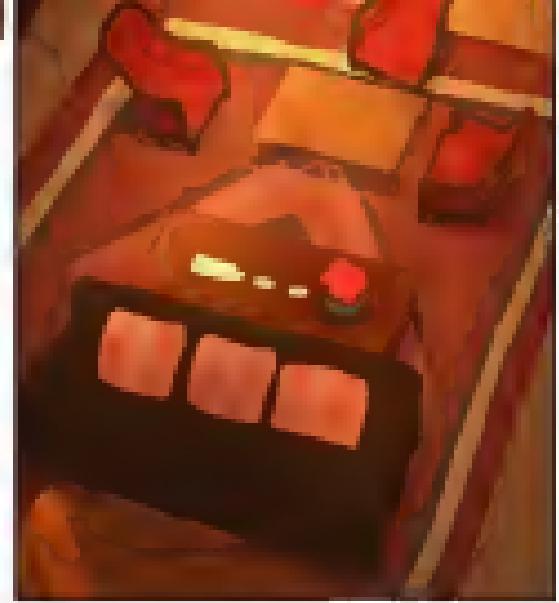

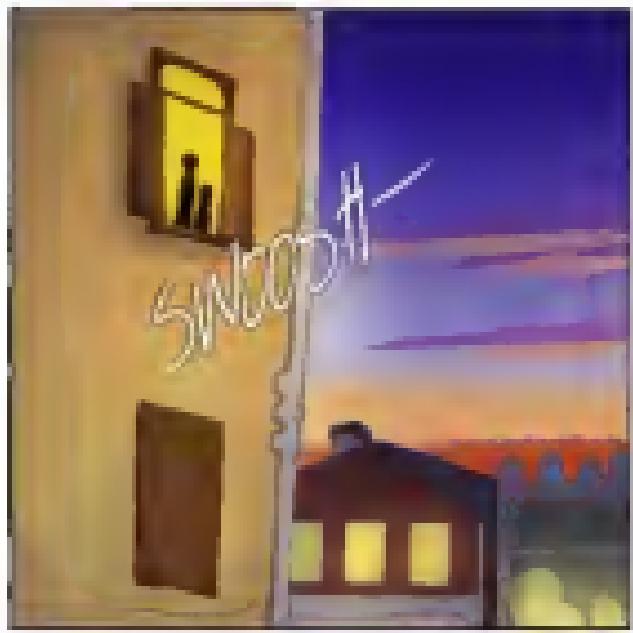

Please be
safe.

This room
seems a bit too
expensive.

Could we move to
somewhere a bit more
affordable, please...?

This must be the place Mr. Rattan was talking about, huh.

Vicepent

The oldest
sanctuary left behind
by the Elheim

TUM: More like forcefully taken away

Right now, it's
being used as a station
for air vehicles.

I've only heard
rumors about it, but
it really is as big as
they say...

Python,
Taturing Branch

What? You can't contact them?

Yes...
We haven't been
able to contact the
hosters for past
couple of days...

We're troubled as
well, since the boxes
aren't working

What are they
saying in there?

The Elders said
that they'll shortly
be investigating, so
there's no need for
concern...

"Salmak?"

Those guys
work for the
Elders!

BANG!

I shouldn't have
had Mugi stay there...!!

But I lost
consciousness
in the forest...

gack

O_o

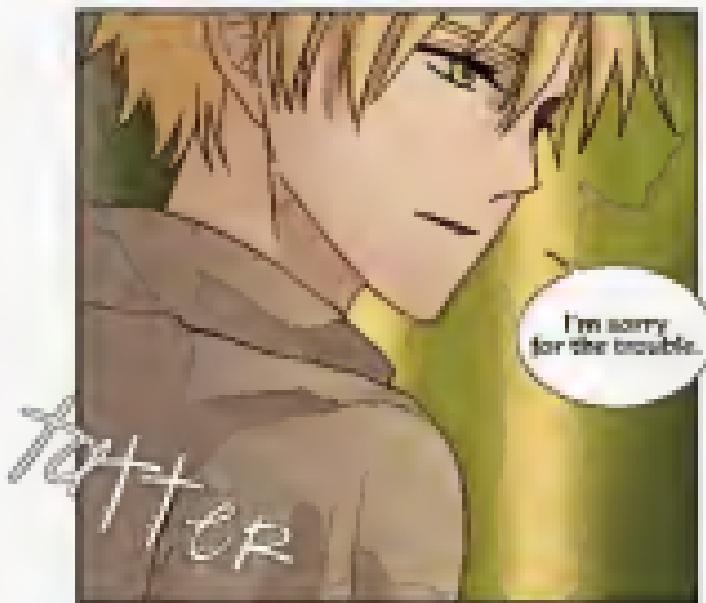

You're awake now?

We planned you
being taking a vacation
for a month.

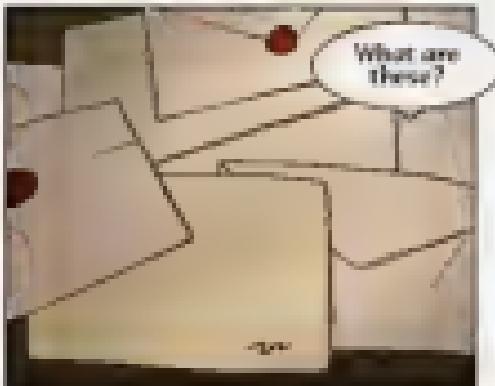

We did consider
going to Japan, but
thought this location
was better.
Please not go anywhere
anywhere, please.

tetter

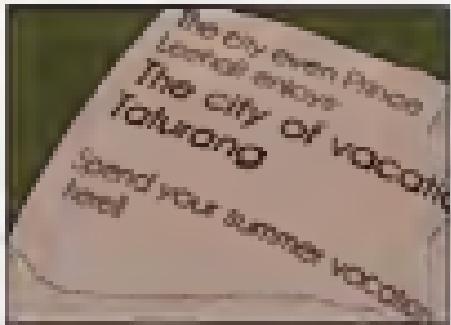

They're
invitations from all
sorts of merchants
and nobles.

It's only natural
for them to send an
invitation to welcome
the prince.

It looks like the winter festival is starting as well...
